<div>This experience helped me to empathise with the abstract concepts of forestry and plant science. (1 = highly agree, 2 = agree, 3 = neutral, 4 = disagree, 5 = highly disagree)</div>	3	2	2	2	2	2	2.17
<div>Any other comments</div>	<div>I wanted to see more from the dance. Levels, styles, duets, lifts. Varying movement for the score. And the dance costume.</div>	<div>Would be nicer with better light and sound resources in a darker space.</div>	<div>Often difficult to hear the singers over the ensemble. Some ambient music during scene changes would be nice. Otherwise really great project and would be interested to hear/see more.</div>	<div>I think the singers can be placed near the audience. It wasn't easy to hear the texts. Well done! It's a nice experience. I enjoyed it all.</div>	<div>Sometimes the ensemble is a bit too loud and I am not able to hear the words, it might be good to think about the position of the singers. The music and the performance are beautiful. The scene changing could be more smooth.</div>	<div>Really enjoyed the visuals land most of the music. However it was very difficult to hear the words and bass guitar.</div>
