

TO MAKE YOU SMILE

INTROCHORUS

driving home is where i'm going
through the mountains I grew up in
I am longing to be with you
and to see you smile

VERSE1

in my life – you know
I was lost - at times
nearly lost - my mind
now there is no way – I can lose my grip
the way you touch me
I see your beauty

CHORUS

driving home is where i'm going
through the mountains I grew up in
I am longing to be with you
and to see you smile

never thought that I could win ya
never dreamt we'd be together
gonna try to put my best in
all to make you smile

VERSE2

when you speak - bout us
what I hear - is love
coming from - above
lets find our way - to move ahead
our days aint' over
No our days aint over
(my mind says show her ?)

OUTRO CHORUS

At the cusp of new beginnings
Where the light is shining stronger
In the shade of darker pastimes
now it all looks bright
