

Urban Witches Questionnaire Result

2024-05-24

Eight testers were asked to answer four questions after experiencing *Urban Witches*. Three of the questions were based on a value from 1-10 for easy evaluation.

1. *How do you feel now? (1-10, Confused - Content)*
2. *How did you experience the hallucinations? (1-10, Tiresome - 10 Intriguing)*
3. *Which hallucination spoke to you the most? Why?*
4. *How transcendental did your experience feel? (1-10, Not at all - Very much)*

The average value for each answer has been calculated from the 8 anonymous testers (unknown age and gender) and are shown by the corresponding number below.

1. An average of 61,2% feel content. $(6+10+9+10+7+8+5+3 = \mathbf{49/80})$.
 2. An average of 72,5% feel intrigued. $(6+10+9+8+8+7+10+8 = \mathbf{58/80})$.
 3. The purple smoke (**B**) and the fire people (**A**) share 1st place (three each).
(A, C, A, B, A, C, B, B).
 4. An average of 67,5% felt the experience was transcendental.
 $(7+9+7+3+10+ 4+4+10 = \mathbf{54/80})$.
- Total value 161/240 = Our experience was 67% “successful”.**

Note: Question number 3 was not based on a rating from 1-10, but instead asked the tester to pick 1 of 4 hallucinations and then describe briefly why it had made an impression on them.

Three testers left no comment. Three answers revolved on the experience in general while two stated that they didn't notice all the hallucinations.

One of them commented that the last part was very peaceful (watching the sunrise) and another said they enjoyed sitting around other people in the desert. The flying sensation after drinking the peyote was appreciated, while another one of them wished for more hallucinations.
