

## **VERSE1**

Light is shining through the dark  
and who would set the world on fire now  
don't know but it's coming down  
Do you see what's going on ?

## **CHORUS1**

*When, I knew  
could not believe in it  
How, can we  
live with it ?*

## **VERSE2**

Day is turning into night  
had to go, it's out forever now  
with another one gone by  
waiting for a change to come

## **VERSE3**

oh my dear I feel so lost  
and I don't see a way to overcome  
what they keep on pushing through  
they can't keep it going on

## **CHORUS2**

*When, I knew  
could not believe in it  
How, can we  
live with it ?*

*When, I knew  
could not believe in it  
what to do  
where to go?*

## **VERSE4**

Light is shining through the dark  
but trust in good is all that matters now  
we must change how things are done  
let's begin by righting wrong

## **C-PART / OUTRO**

Walk towards the light  
Be who you are inside
