

LearningLAB	Teacher interviews: June 2024		Questions 5-7		
TEACHERS	Q5	Q6	Q7		
	How much connection do you have with the LLAB coaches?	How do you experience the communication with the coaches?	What do you want to know from the coaches about the sessions?		
	Teacher 1	Only with Irma. She sees them once a week & sends a message in teams about what they did. Sometimes a small conversation through teams. And through the binder. They write their own notes & I check. Sometimes they take too much time with the organising. We use the calendar for the important events. Older ones use it more.	Fluidly – through teams.	What do the students ask?	
	Teacher 2	Irma. Gives updates when she works with students. Teams. Short lines in Teams.	Good: I can use her info. Very specific & good feedback.	There are different group topics – I want to know what they are. Individual processes – I don’t need to know more. I am proactive in using your info and documents. I try to make connections.	
	Teacher 3	Irma & Anna. Not as much as I’d hoped for. It would be helpful if the communication is planned. It doesn’t always happen. Not much messages.	Students are not using the binders – they don’t bring them.	What kinds of topics are you working on. (We use another journal)	
	Teacher 4	Irma. She sends teams messages after working with a student. 2-3 times live talk about the students.	Sometimes I feel she’s more a teacher than a coach. Can be confusing for the students.	I would like more help with the reflection – how can I improve that.	
	Teacher 5	Irma. We talk when we bump into each other. By mail. I could have had more info. My student was content with working with Irma.	Short messages.	It would be nice to see the topics they are doing. The skeleton.	
	Teacher 6	Quite a bit – initiated by Jenna. Talked about approach. Exchange voice memo text messages every week.	Good dialogue. Team helping the student. Sharing insights & observation.	What they worked on based on what the student presented – and what the student asked for. Check. How did it go? I would like to know more about (ahead of time) the weekly themes.	
Teacher 7	I know Irma & Anna, but no concrete connection. But would love to. I see the benefit of combining.		Do the students do what they plan and with quality? Importance of integrating theory.
