

WHY?

A student perspective:
Living in cities for educational reasons

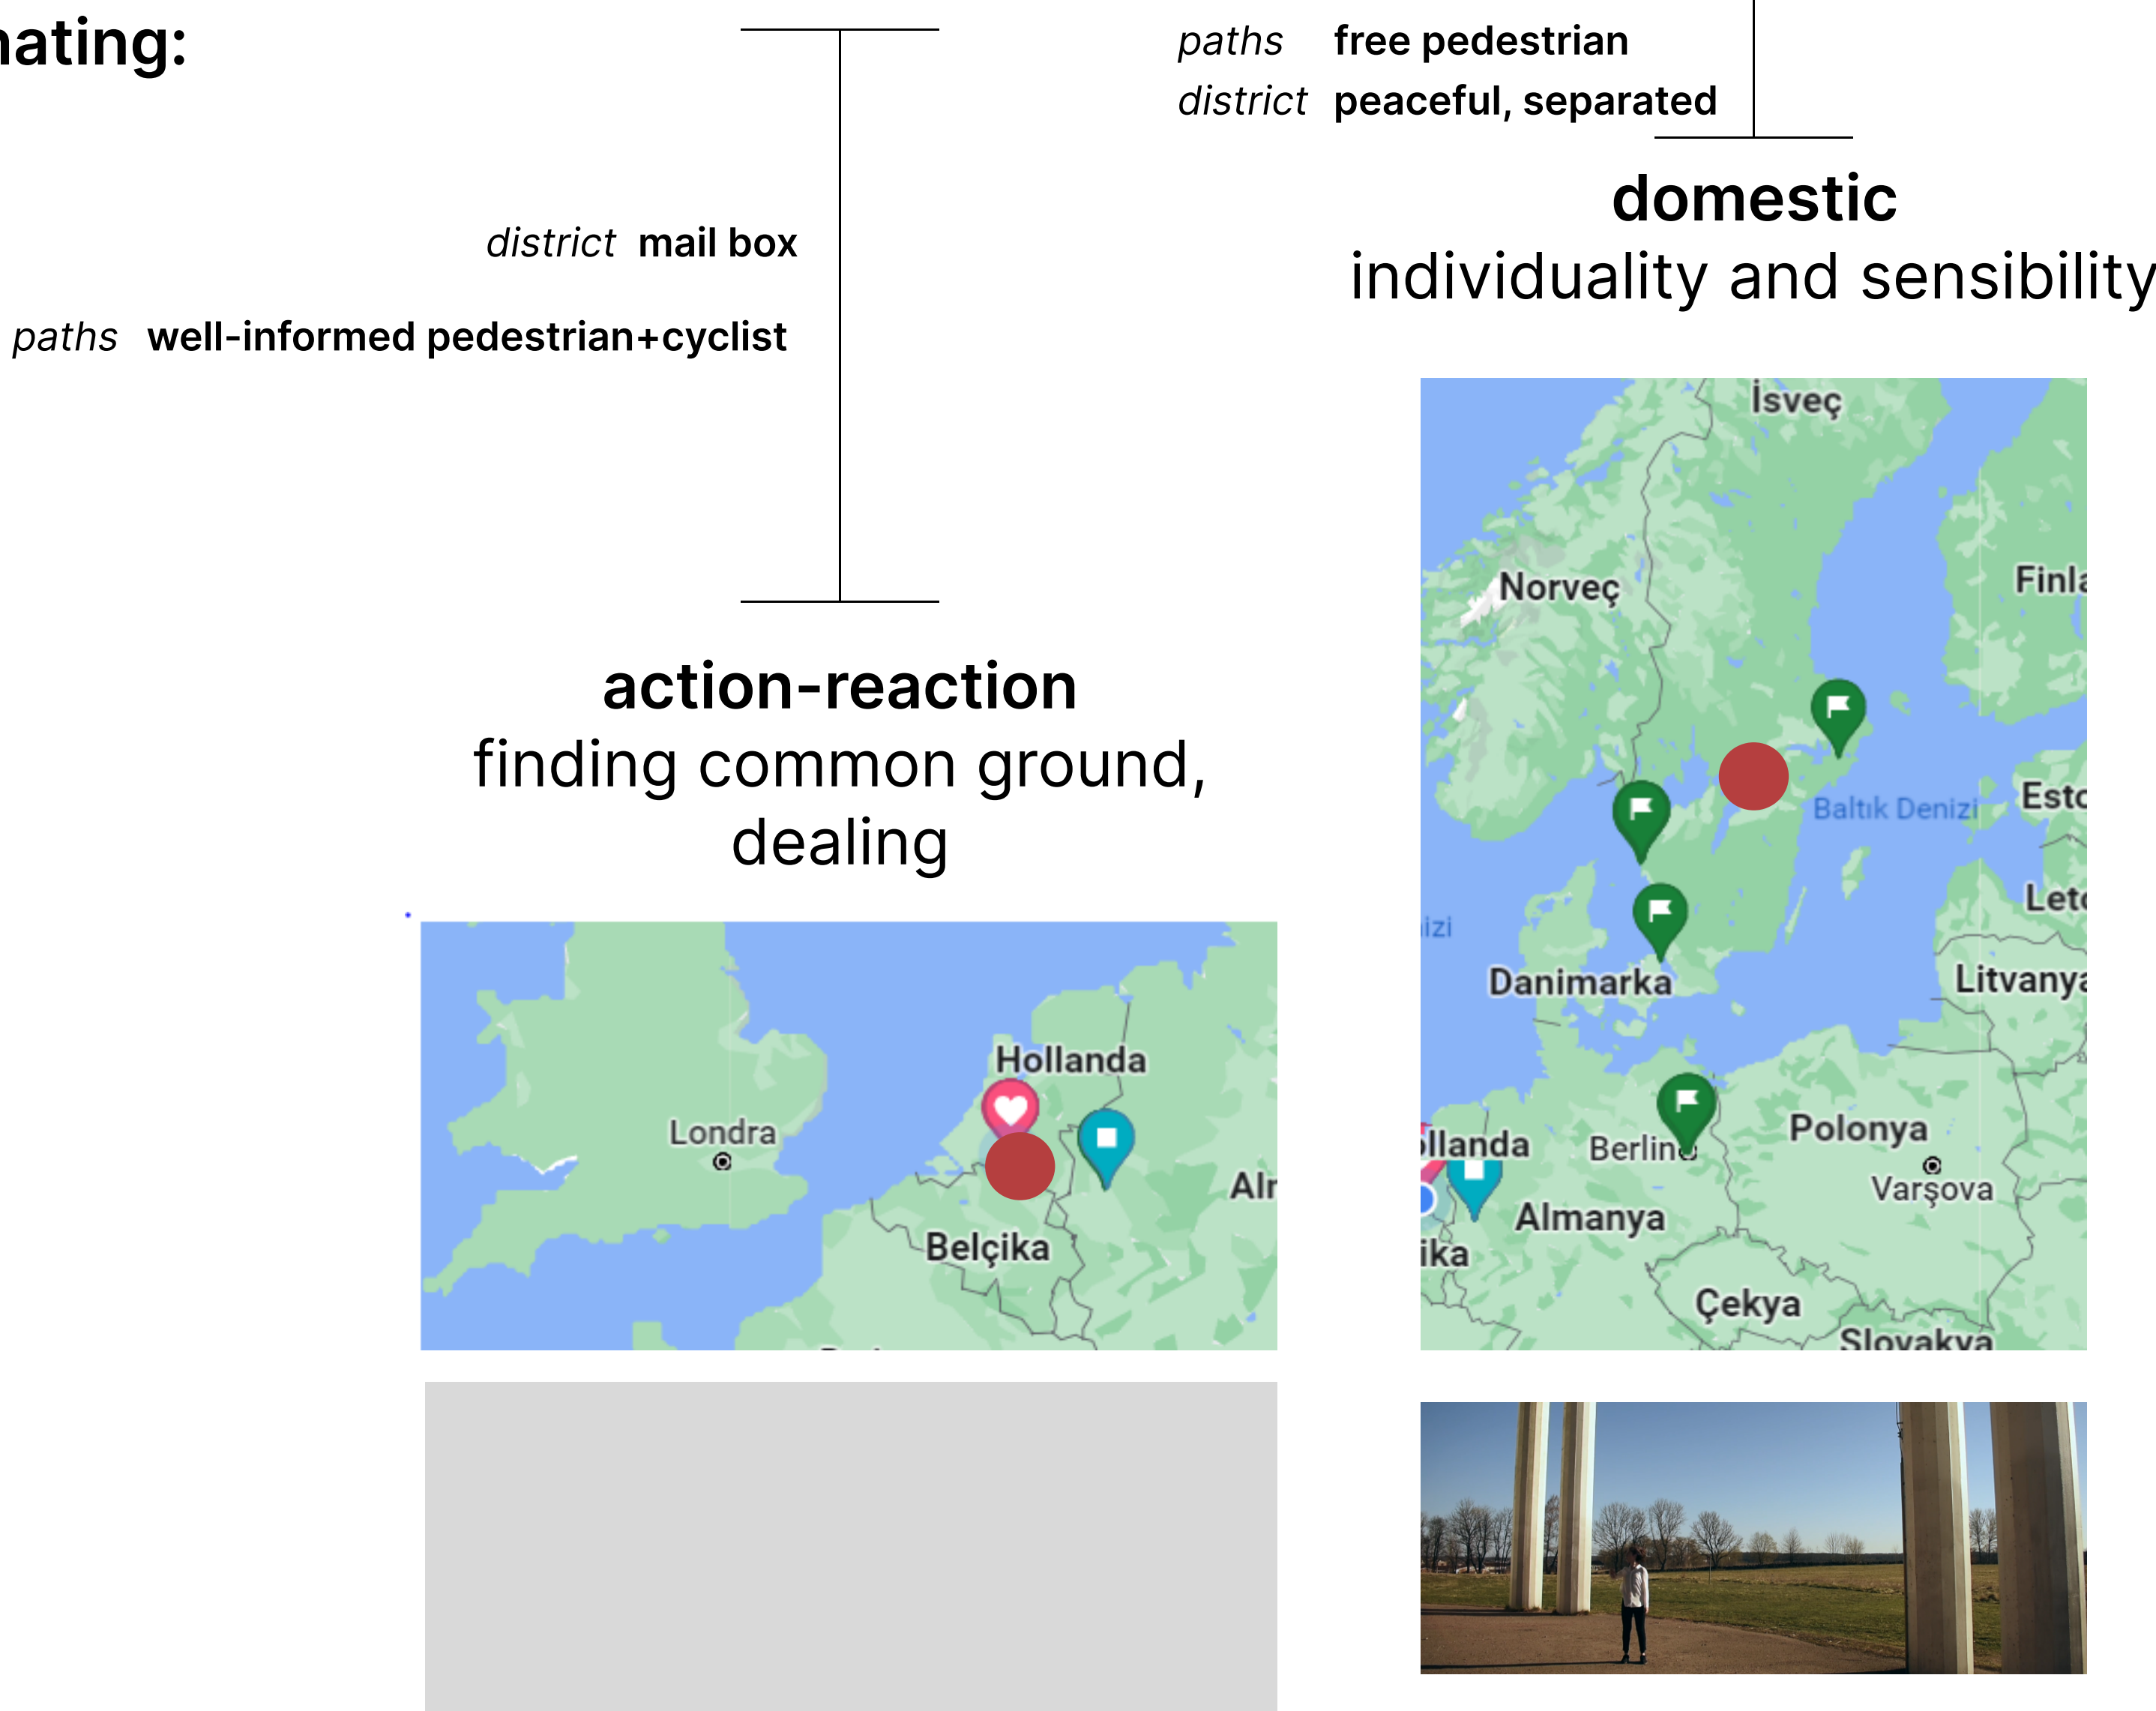

Hello, I live in
Tilburg, Netherlands.

Hello, I live in
Voxjö, Sweden.

Hello, I live in
Istanbul, Turkey.

Cities are resonating:

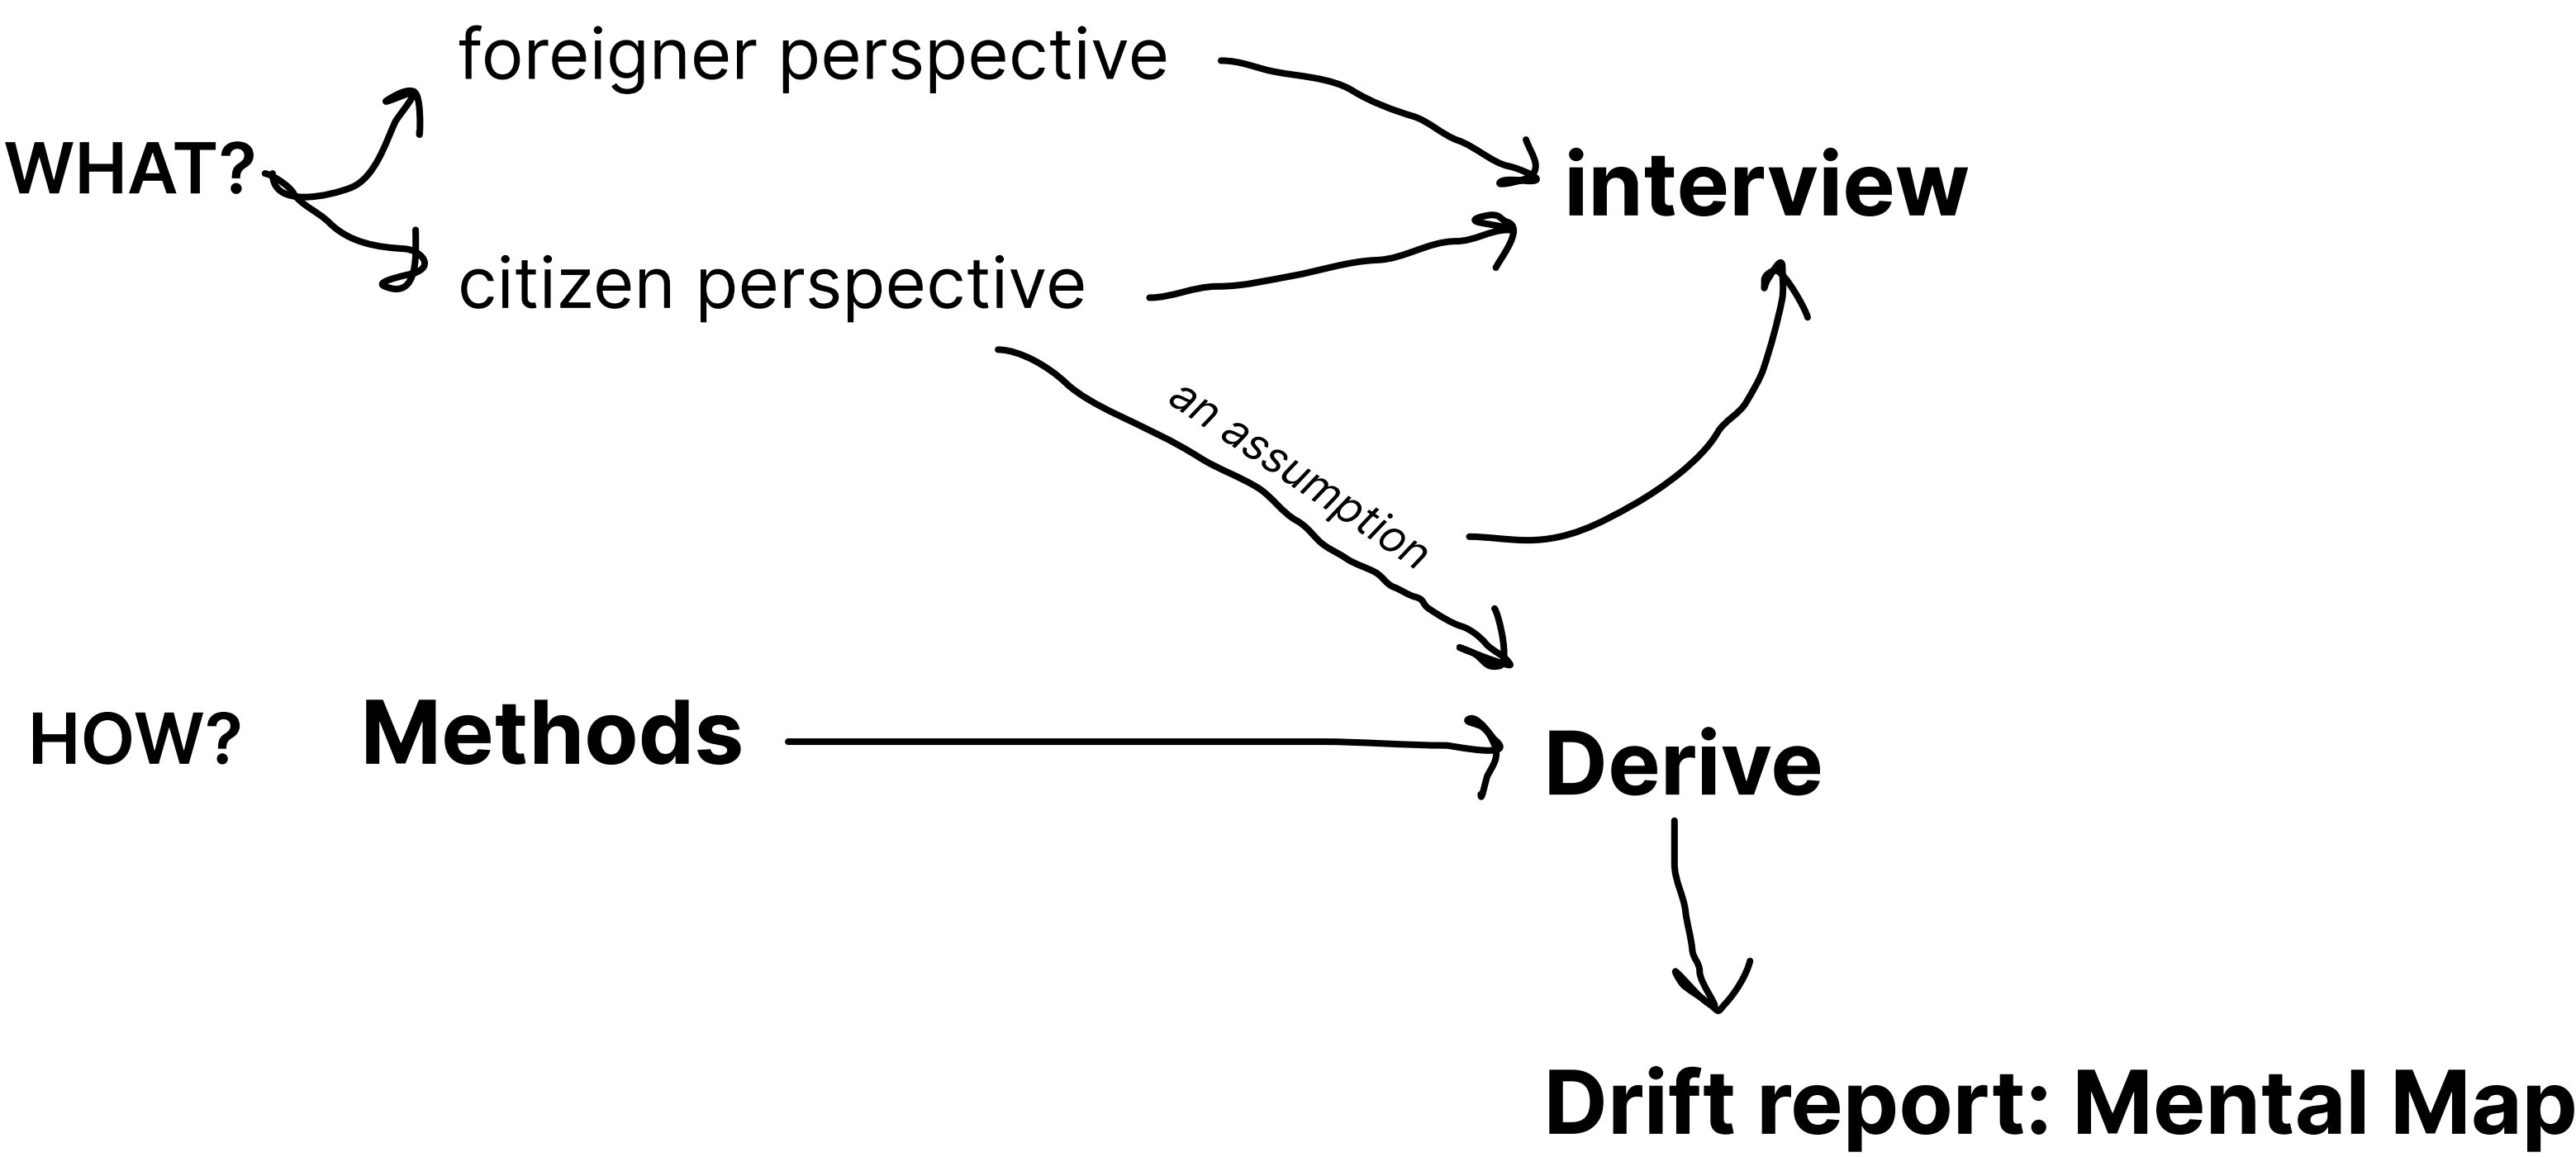

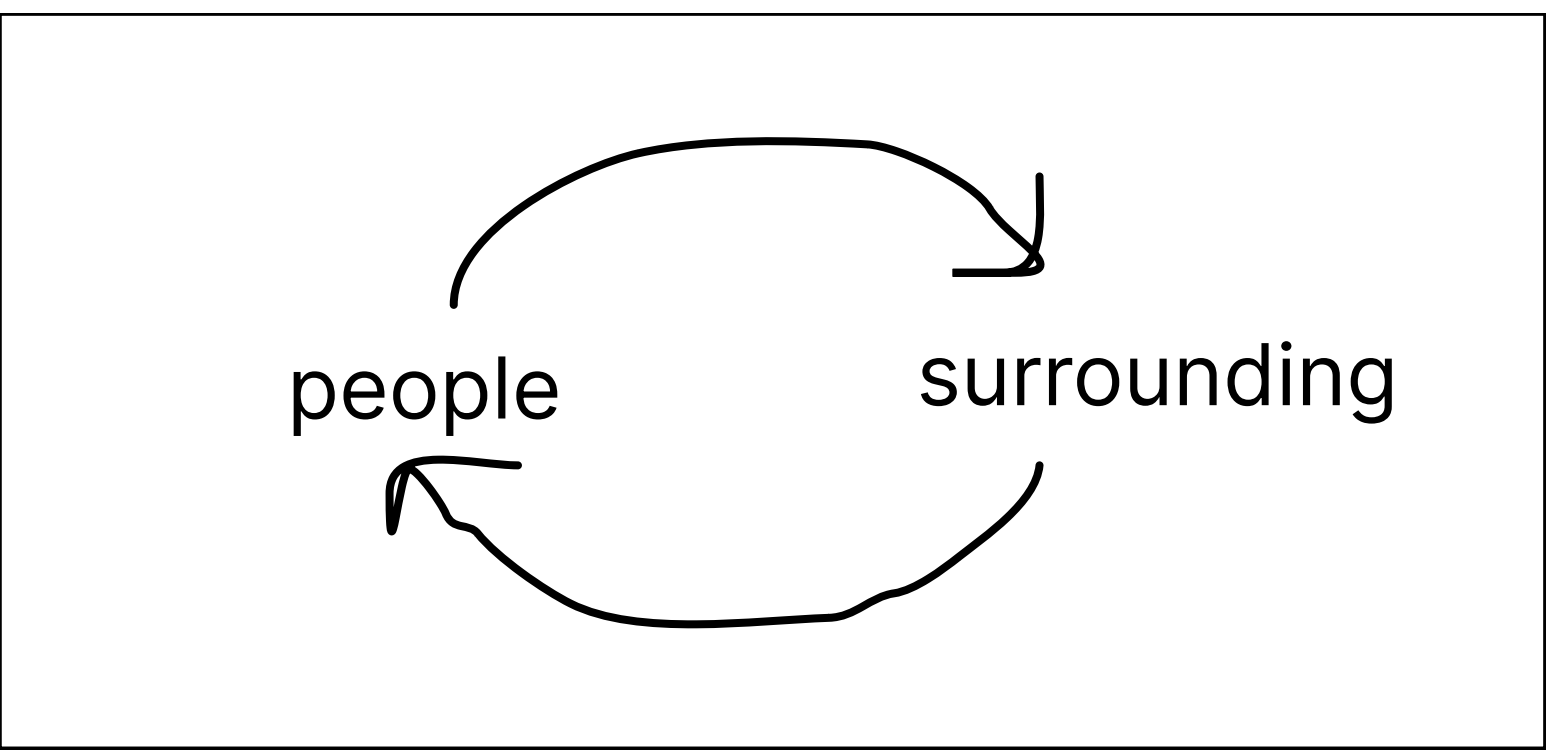

psychogeography
urban archetype
symbolism

Research Categories

- city identity

- mental map
- autobiographical body: embodiment
- somatic practise and object relation

City Identity

WHY? I don't know if it is only me or everybody else thinks like that?

is it my identity?
correlation
or is it common?

Experiment

perform 5 pairing in 5 element location or in drift points: see the reaction if everybody make a relation with it.

etc. ground sign: ear on the ground -listen to the floor-
presenting something from my culture

What do you show or indicate with your body parts? Creating and indicating space with body parts.

Outcome(analysis)

interactive map: tour guide, audio -google map sound-, qr code, Tilburg city map
Observe city guide people, attend city guide tours in the Netherlands or place I visit?

interactive performance: travelling performance (perform in drifting points or located places)

a collective mental map: creating space together

autobiographical body: embodiment
somatic practise and object relation
