

**RAPP Lab3 *Embodied Reflection in Artistic Practice*, May 2-6, 2022**

Info-Letter #3: Information on practical details

Cologne, April 26<sup>th</sup>, 2022

Dear RAPP Lab participants,

this **3rd and last Info-Letter** shall give you some **practical details** of how we will organize our working and researching together.

**1. Plan of the week**

With these lines you also find a detailed plan of the Lab-week with all information you need. Please note that it might be necessary to update this plan every day during the Lab (regarding meeting points, meeting times, or organizing groups or tandems). We will keep you updated.

**2. Material/questions on the internal website**

Please check again your access to the internal part of the RAPP Lab-Website: <https://www.rapplab.eu/lab3-interactive>. We will integrate this tool during our Lab. So please also have a look on the material for the different workshops, for subscribing for the **LoLa-Session** during the Lab (under: discussion/lobby) and maybe also have a look on questions and responses from participants in the discussion-forums. We can already get to know each other here!

**3. Material to bring / access to the Internet**

If possible, please bring your instrument, your laptop and earphones (with cable) with you. You will use your laptop for the workshop with Nina Sun Eidsheim. Our university offers all participants a guest account if they are not connected to the EU-wide network Eduroam. All those who do not have Eduroam access can still inform us until Thursday 28<sup>th</sup> 2022. Please note: It might be cold in the Cathedral on Monday night – please do not forget a warm pullover ☺

**4. Canteen / meals**

You will be our guests for a vegan soup on Monday evening, 2<sup>nd</sup>, and for a lunchbreak on Friday, 6<sup>th</sup> May. During our workshops we offer water, coffee, tea and little snacks. For lunch during the workshop in Wuppertal on Tuesday 3<sup>rd</sup>, all participants have the opportunity to have a convenient meal at the university-canteen, directly in the basement

of our building in Wuppertal (only EC-payment is possible). For Wednesday and Thursday we will provide information about where you can have a meal or a snack near the place where the workshops takes place.

### **5. Documentation**

Our experiments and workshops are accompanied by our video artist Agafia for research and documentation purposes. She completes our RAPP Lab team in Cologne. Agafia is part of what we do and her camera is not an external viewer but rather a friendly companion. At the beginning of the Lab, we ask you to sign the consent form for the documentation.

### **6. Contact Number** (in case of delay etc.)

In case that you need to contact us urgently next week you can contact Evelyn directly under  
+49 177 5795730 (also via WhatsApp).

### **7. What's next between now and the Lab?**

Please check the internal website and leave some traces ... If you have any further questions about the Lab, please feel free to send them to: [rapplab@hfmt-koeln.de](mailto:rapplab@hfmt-koeln.de)

We are very excited to welcome you to the HfMT Cologne!  
Thank you for joining us in this experimental project!

The HfMT Cologne RAPP Lab team would like to thank:

- the rectorate of the HfMT Cologne for the support of the RAPP Lab,
- Florence Millet and Werner Dickel for welcoming us in Wuppertal,
- Sebastian Spicker, Simon Spillner, Bastian Benz and Jörg Mixtacki for setting up the LoLa-Session,
- Georg Platen, Susanne Koch and the whole team of the KBB of the HfMT Cologne for the technical and organizational support,
- Winfried Bönig for opening to us in the secrets of Cologne Cathedral at night

Warmest wishes and stay healthy

the whole RAPP Lab Team of the HfMT Cologne

Evelyn, Sybille, Constanze, Jan, Corinna, Laurenz, Fernanda, Stella, Nina and Lars
