

Zoey Benschop  
conceptual designer

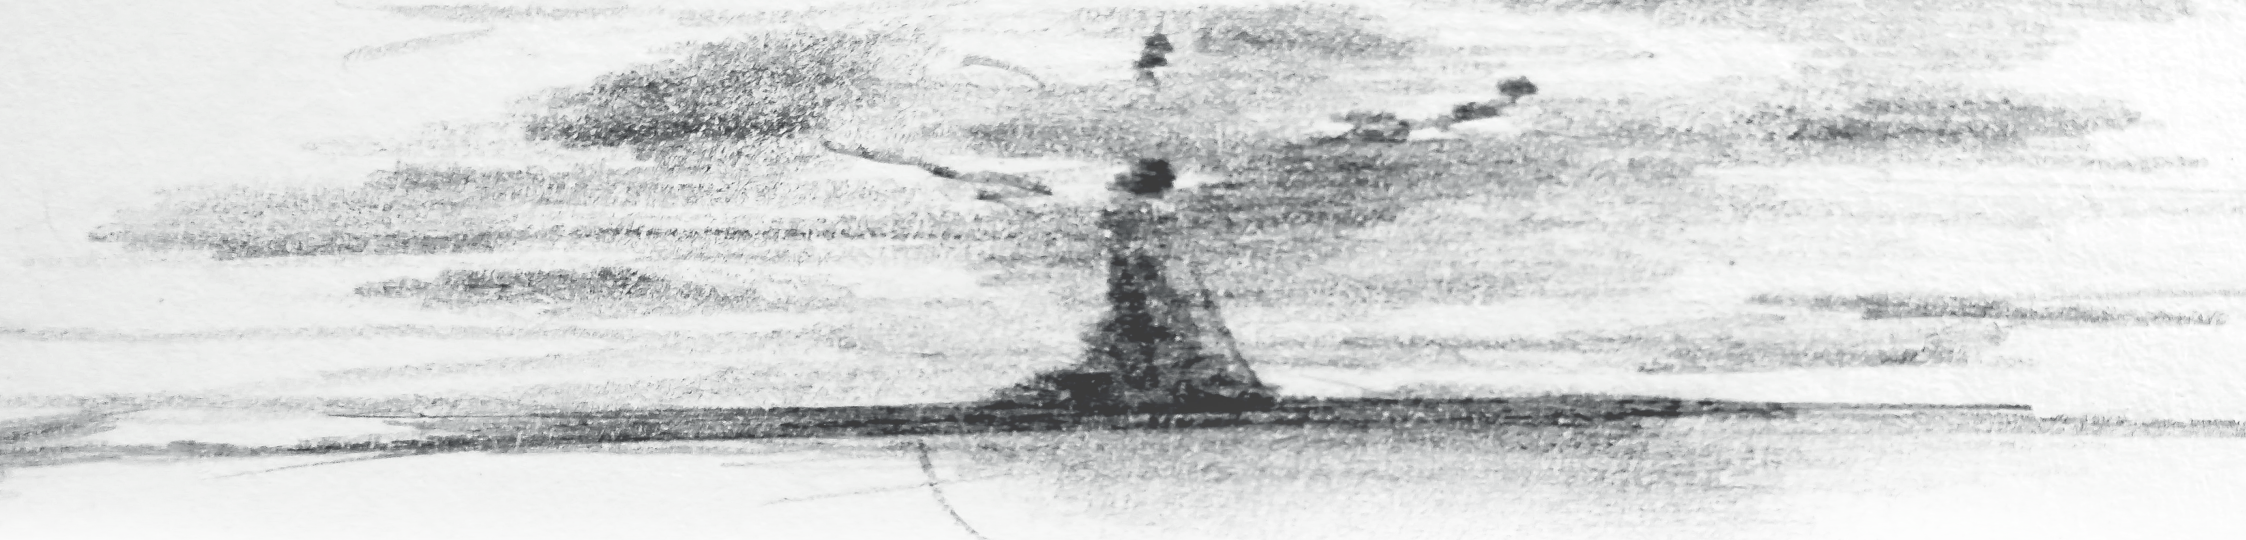

Zoey Benschop

My work tells stories about **space**, **time** and **movement**. Finding a deeper meaning in projects are a key point for me. I have always been interested how to guide people in space. What is the role of the designer and the spectator?

I am a driven, spirited and social person, works hard and is dedicated to the projects. Loves to draw, make collages and concept thinking. Not afraid of challenges and learning new things.
