

(RE)WILDING PRACTICE OUTPUTS – Year Four

Videos

The first two videos in this small collection zoom in on two techniques I experimented with in early *Carrion Ecologies* iterations. The third is a short iterative cut of *Carrion Ecologies*, rendered for this thesis from fragmented material developed across earlier versions. These videos are all presented without sound. In published and other versions, the forest sound design/music experiments accompany them (*as in the Year 3 videos*).

Fly and Butterfly

See write up in RC Exhibit->Seasons of Practice->ASSEMBLY: Fly and Butterfly

Eco-Spectrality

See write up in RC Exhibit->Seasons of Practice->ASSEMBLY: Eco-spectrality

Carrion Ecologies
