

## Annette Arlander: The Stockholm Tree Calendar

part of (or a sidestep within) the artistic research project “performing with plants”, see <https://www.researchcatalogue.net/view/316550/316551>

The *Stockholm Tree Calendar* was performed and video filmed in 2018, based on the so-called lunar Celtic tree calendar with thirteen months (<https://www.thoughtco.com/celtic-tree-months-2562403>) and was a further development of the *Helsinki Tree Calendar*, performed and video filmed in 2017, (described here <https://blogs.helsinki.fi/hcasblog/2017/12/04/the-tree-calendar-or-performing-with-plants-in-the-parks-of-helsinki/>).

The material exists in three versions:

A calendar, 13 individual videos (ca 9-16 min.) to be shown one at a time (at present at the entrance of Stockholm University of the Arts at Linnégatan 87).

An installation version with clips of equal length (9 min 26 sec.) to be shown simultaneously from 13 monitors.

A screening version (17 min 42 sec.) with 1 min. 25 seconds from the beginning of each video.
