I reported today to the central police station in Skopje what I have reported to yourselves by email about the Greek-Swiss, who has been using the last fake North Macedonian passport in the fake name "Katerina Nigianni" in London since 2013. I also mentioned she appeared in the Central Crown Courts with this fake passport in September 2021. They confirmed there is no North Macedonian citizen with these details and asked me what I know about the woman, who has been using the fake North Macedonian passport, which is more or less what I have told you, since I haven't met her in person. They also took my details.

You can request the details of this last fake passport from the UK Home Office. The family of an abducted North Macedonian migrant woman in 2013 by Golden Dawn would be owed compensation from the Greek government.

Sincerely,
Zoe Panagiota Nigianni
