## Making catagories

Visualisation 3rd spacew

Our third space creates more CONNECTIVENESS by turning HALLWAYS into spaces where people also rest through CARPETS that invite for STAYING instead of only moving.

Our third space lets the LIGHT in as much as possible and feels BRIGHT and OPEN

In our third space you can find a lot of places to HANG, SIT and RELAX.

Our third space has NATURAL ELEMENTS outside like naturally formed 'bean bags' to sit on.

In our third space there's place to PLAY, CONNECT and ZONE OUT

In our third space we meet for PIZZA regularly !
