If the two abducted Albanian boys cannot be traced to Greece, they would have been abducted in Scandinavia, Norway or Sweden, by the NRM (Nordic Resistance Movement), since an identified adult male member of this group from Norway was found to have two fake non-EU passports in the UK since 2013, including a fake Albanian one since 2016.

Please liaise with the relevant governments of Sweden and Norway. Both their embassies in London asked me to report the Norwegian member's crimes; attached their contact details. I have reported what I know, including the use of counterfeit documents connected with an online platform the NRM uses.

Sincerely,
Zoe Panagiota Nigianni
