

Rules of the game

The interactive part starts at the beginning of the part two and ends at the beginning of part three.

- Approach each sound box gently, give yourself the time to explore the object and listen to it, before trying out the next one.
- Don't bounce or launch the sphere, but let it gently slide on the floor.
- The carton box can be moved but not launched or roughly overturned.
- The wooden box cannot be moved, but it can be energetically rubbed or hit, try out different nuances.
- Remember that playing with others is first of all listening to each other.
- You are warmly invited to use gloves while playing the sounding boxes.

Enjoy!
