

VERSE1

there is beauty around us
everywhere I turn I see gold
even when it's dark I don't feel
in the cold

what we get, it can't be all
there is more we don't see
gotta keep on searchin'
forever

CHORUS

Dreams
at night
in Color
the colors lights the sky so bright
rays of light
away

VERSE2

when the small birds are flying
when the bees start to sting
everytime that life does its thing
angels sing

we're together in this world
there is so much we don't know
gotta keep exploring it
forever

C-PART

nobody can know
the truth
on how it came about
cuz nobody knows just what it is

VERSE3

there is beauty around us
everywhere you look you'll be sold
even if you go far and wide
so I'm told

what we get, it won't be all
there's many ties we can't make
gotta keep investigating
forever
