

	How many science related events attended per year	Is this the first opera you have seen?	1-5 (agree-disagree): Interested due to science	1-5 (agree-disagree): Interested due to opera	1-5 (agree-disagree): The show presented new science	1-5 (agree-disagree): Increased my interest in Physics	1-5 (agree-disagree): Increased my interest in opera	Rating of the experience	Extra comments	Age range	Gender	Academic studies level
1	3.5	No	2	1	2	2	1	Highly Satisfactory	I was really interested in the intersection of physics + opera. The love story at its heart was really quite powerful!	18-25	M	PhD or above
2	4.5	Yes	1	2	4	1	2	Highly Satisfactory	Loved the physics jokes so much!!	18-25	F	Undergraduate
3	4	Yes	1	2	4	2	2	Highly Satisfactory	Maybe put a smoke machine warning for asthmatics/ people with respiratory conditions. Otherwise it was great.	18-25	F	Undergraduate
4	A lot	Yes	1	1	1	1	2	Highly Satisfactory	I loved it!	<18		Up to A Level
5	4	Yes	2	2	2	2	2					
6	0	No	1	1	5	1	3	Highly Satisfactory	Very deep experience and great performance	18-25	M	Undergraduate
7	5		1	1	2	1	1	Highly Satisfactory	Amazing score and vocal orchestral intensity - really fascinating bringing opera to science or rather science to opera. Really moving - you can feel the science.	40-65	F	PhD or above
8	Lots	No	1	1	2	2	2	Highly Satisfactory	Very good singing (even without a tenor :))	26-39	M	PhD or above
9	0	No	5	1	3	2	2					
10	12	No	1	1	3	1	1	Highly Satisfactory		26-39		PhD or above

Entanglement. Wow! A unique, amazing, multifaceted physics opera. Never seen anything quite like it. Brilliant concept with excellent characterization, beautiful singing and magnificent music. And a bit of light comic relief from the silly scientists. A thoroughly entertaining evening!

  Dani Blanco Albert, Jess Webber and Roxanne Korda
